LINK

Writing

This half term we will be investigating our favourite traditional tales. Focussing on Jack and the Beanstalk. Children will be immersed in the topic by creating their very own characters. We will be able to use the skills previously learnt in our previous topics as well as learn new skills to create our own stories. Skills we will learn and use include past tense and third person, speech, synonyms and antonyms and the use of commas appropriately in a story. Children will

LINK

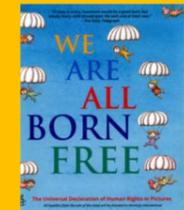

Numeracy

In numeracy this half term we will be, mastering our addition and subtraction skills. We will use a variety of different methods to show working out and our children will be able to choose their preferred method. We will also be investigating measures, including weight and measuring using rulers and metre sticks. Towards the end of the term, we will also be mastering multiplication and division using our multiplication facts knowledge and sharing

Computing

We will be using the iPad and laptops for research purposes and analyse video clips. We will also use the iPad to play times table's rock stars! We will continue to ensure we are safe on the internet!

Tales

Science

In science this half term, we will be able to identify and name a variety of different plants and animals in their habitats. We will be able to identify and label parts of plants and animals and explain how and what food they need to grow. As a practical, we will compete a growing experiment. The children will grow their own bean plants. Children will use their language skills of prediction and comparative language to answer scientific questions.

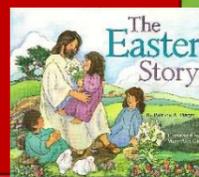

Art & Design

In art and design, we will be designing our very own traditional tales setting. Children will be able to use their imagination and a variety of different materials to create the setting for our fabulous finish. This will include a variety of our art skills, including sketching,

Music

We will be exploring different beats and exploring sounds that we can make in our classroom.

R.E

In RE this half term we will be learning to understand different religions and comparing them. We will be looking in depth at the similarities and differences of each religion.

We will be closely looking at Easter and how the Easter story is

P.E.

In P.E. we will be developing our throwing and catching skills, particularly aiming for targets.

Geography

In geography, we will be investigating the different features of the world, including physical and human features. With a cross-curricular link with our science topic, we will investigate more on physical features such as soil, climate,
