RE: Vapes

Dear Parents/Carers

We would like to clarify that under no circumstances are children allowed to bring or use vapes within the Academy. Law states that children under the age of 18 are not permitted to own or use vapes of any sort.

If a child is found in the possession of one of these prohibited items or found to be using one, the Academy will have no option but to follow the DFE guidance for suspensions and the use of prohibited items on Academy property.

We take the health and wellbeing of our children extremely seriously and hope you will support us in keeping our children safe at all times.

Kind Regards

N. Smith
